Images are for illustration purposes only

This is a home with a sense of purpose and balance, a home where you can reside, connect and grow...

This is remarkable living

Launched in 2022 by D/RES Properties, Tinakilly Park is a thriving community of families and individuals who have already discovered the joys of its beautiful Co Wicklow setting - nature, coast, bustling town life, great amenities and more.

We now invite you to experience this wonderful lifestyle for yourself, with the launch of Phase 2 of this exciting development.

Previous: Tinakilly Park and exterior of houses

Discover a New Way of Living

Comprising a mix of 2, 3 and 4 bedroom apartments, duplexes and houses, with something to suit every buyer, this new phase builds upon the success of Tinakilly Park, a development now known for its sensitive and sustainable approach to living.

Tinakilly Park perfectly reflects the gentle nature of the beautiful Wicklow countryside, as well as offering easy access to neighbouring Wicklow Town, with its unique mix of cultural curiosities and conveniences.

Your new home - all in perfect harmony

Mindfully designed, our elegant homes are superb examples of when aspiration meeting reality, creating the perfect sanctuary for you to enjoy.

Styled by nature

Tinakilly Park's elegantly designed interiors and thoughtful green spaces give you an immediate sense of home. The interiors are inspired by mature woodland, earthy tones and biophilic living.

The interiors are a fusion of old and new inspired by the neighbouring Tinakilly Country House Hotel and the contemporary needs of the next generation.

A Sustainable Design Vision

Sustainability is a key driver in every part of the design and construction of D/RES homes in Tinakilly Park. From exceptional energy efficiency (minimum A2 BER) to the environmental impact of the materials we select, combine to deliver premium quality, sustainable homes in Tinakilly Park. The homes in Tinakilly Park are fossil fuel free, with top quality heat pumps and heat recovery ventilation, providing optimum thermal comfort and indoor air quality.

To support homeowners who would like to maximise the sustainability potential of their new home we have developed a Positive Living offering with our energy partner Pinergy Solar Electric.

Positive Living is a bespoke renewable energy offering which can be tailored to your individual home and energy profile. Positive Living includes solar PV panels to selfgenerate renewable energy, with the option of electric battery storage and smart energy management to put the power back in your hands and control how you use energy in your home. Electric vehicle charging points can also be included in the system if required.

Positive Living is an optional upgrade on homes and will be facilitated by Pinergy Solar Electric.

All Positive Living homes can be connected as a community microgrid, allowing neighbours to share excess energy* and feed back into the national grid.

* The peer to peer sharing of excess energy in the community microgrid is dependent on upcoming changes to Irish tax regulations. National Grid feed-in tariffs are currently available and set by the energy market.
